Subject: INTERNAL DRAFT Draft SEIS
Date: Wednesday, January 08, 2014 8:40:12 AM
Attachments: [20140107_seis_draft.docx](#)

Attachment withheld under (b) (5) (DP). Responsive material: references to Fox Hills-Hell Creek aquifer.

My apologies for the delay. Here is an internal review draft of the SEIS. It does NOT have the Wildlife Section or the Air Quality section in it. 3 species were proposed for listing this fall so we are ensuring our Wildlife discussion reflects that. Air Quality we are working with our BLM partners on.

If you could have any comments back by the 17th I would appreciate it. That is short turn around be we are really hoping to move this out the door, and it is only 100 pages.

Just checking on when you will need the air comments by—deadline. Assuming it is a different deadline than Dec. 3 if we get it next week??

The Water Resources reports I sent you are the only water related reports we have prepared/planned to prepare. They cover impacts to surface and ground water.

Air “report”/SEIS section should be ready the week after Thanksgiving.

Thanks, what is the status of seeing a preliminary for WQ and air? I think the best we can do with this timeframe is flag issues of concern. With the Thanksgiving holiday there are only about 9 days left. I am in training for 2 days but will be checking my voice and email.

We would like prelim comments back by December 3 so we can consider and respond before we publish.

Karen, can you give me a due date on prelim comments as the Thanksgiving Holiday and Black Fri (almost a holiday) can interfere with the comment period.

Subject: Water Resources Reports

Robin,

I apologize. I fully intended to get these out to you earlier in the week. Here is the report written by our Hydrologist for Groundwater impacts and the one for Riparian/surface impacts. Please consider these as draft documents only for internal review.

If there are specific comments the folks working with you have on these. We would greatly appreciate them sooner than later. My attention next week is going to be focused on assembling the Draft SEIS – and I will be pulling information from these documents to do that.

Have a great weekend.
